HONEYMOON TRAIL ROSÉ

This rose wine is light and crisp, perfect for a warm summer day. The Honeymoon Trail is located behind Lutsen Mountain.

SYRAH

100 MILL ST GIN MN SPIRITS

GIN | 750 ML | 42% ALC/VOL

Hints of Black Currant and bright citrus taste—Deep, with clues of vanilla, grapefruit and a touch of cardamom—decidedly smooth 42% abv. The run is limited. We produce a mere 3,000 bottles (500 cases) per year. Our production collaborates with the angle of the sun and the seasons of the year. We set our schedule by Mother Nature and the maple sap harvest. Maple sap runs slowly, but 100 Mill St Gin runs out quickly. If you miss the run you'll need to wait anxiously until next Gin season. We harvest 30,000 gallons of maple sap from 3,000 robust hard maple trees during Northern Wisconsin's spring thaw season. We distill that into 750 gallons that is re-hydrated before adding a very specific yeast that sparks the 100 Mill St wonder via the grain-free and subtly balanced sugars provided by our maple trees.

11 WELLS MN SPIRITS

History

Located in the historic Hamm's Brewery on Minnehaha Avenue in St. Paul, 11 Wells is proud to be part of the revitalization of the Payne Avenue Corridor. The brewery did indeed use eleven wells, and in keeping with that tradition we use our on-site well as the source of water for our spirits. We're proud of our history and our neighborhood as we aim to be true to our St. Paul roots.

Made in Saint Paul Minnesota

From grain to glass, everything we do at 11 wells is local. Our spirits and liqueurs are made on site with ingredients sourced from Minnesota farmers. From prohibition-style corn whiskey to aged molasses rum to smooth, botanical gin. We have a spirit for everyone.

HEIRLOOM LIQUEURS MN SPIRITS

AMERICAN ALCHERMES

Uses warm botanicals like Cinnamon and Clove that are softened with Rose Water and Vanilla Bean. This ancient, warm, dusty liqueur is truly mysterious and to our knowledge, the only alchermes produced in America. Delicious in a Negroni, a Spritz or as a modifier in a sour or fizz.

CREME DE FLORA

Created with a bouquet of vibrant flowers native to five continents including marigold and chamomile, resulting in a versatile liqueur that can serve as an aperitif or to provide nuance to a cocktail. Try it in an Aviation, Champagne Cocktail, or as a replacement for orange liqueur in a Sidecar.

GENEPEY LIQUEUR

Formulated with bright alpine botanicals, mellowed with honey, and produced with the Sunflower, a distinctly North American botanical. Intended to be used both as a mixer in cocktails, as well as enjoyed neat, the proof and sweetness are balanced for versatility and flexibility.

PINEAPPLE AMARO

Heirloom Pineapple Amaro is a full bodied amaro composed with tropical ingredients like Queen Victoria pineapple, native to the Caribbean and Jamaican Quassia Bark. At once rich and fruity yet sophisticated and bitter, Pineapple Amaro is an ideal cocktail ingredient as well as neat pour digestivo.

MODEST VODKA.

MODEST VODKA MN SPIRITS

VODKA CRISP. CLEAN. AMERICAN

Modest Vodka is just that, modest. It doesn't come in a flashy bottle. It isn't distilled a thousand times, or filtered through comet dust, or made from a rare, expensive grain. No gimmicks at all, in fact. Just an expertly distilled vodka to be used in cocktails, in highballs, or however else you please.

If you want it dressed up though, here's the tale. Modest Vodka is distilled from grain and cut in a copper pot still in Minneapolis. The vodka is then proofed with reverse osmosis water and filtered to under 1 micron. And that's the Modest truth.
